Tracking sheet for exchange with EPA. 11MARCH16.xlsx

Looks like when this email originally came in it did not include Monica and Amy.

Is there a way we can ensure they get added to future dialog on this? Is there someone specific I can ask to include them?

Yes, apparently they sent it Monday. I didn't look at the distribution list (or frankly, really the email since I've been busy). Sorry about that.

Hey everyone,

Please see the email below and attached documents from PMRA.

Our next neonic team meetings are scheduled for:

March 22 at 1-2pm EST: CFS for clothianidin and thiamethoxam (timeline for review and stats)

March 30 at 2-3pm EST: Monthly neonic team meeting

If you'd like to meet earlier or to discuss a specific neonic, let me know and I can set something up.

-Tina

Hi Tina-

Could you please provide this email and attached items for exchange with EPA/CDPR neonic pollinator teams.

The following are attached for the EPA/CDPR neonic pollinator re-evaluation teams.

1) Clothianidin and Thiamethoxam Milestone Schedule updated with PMRA additions/changes. Note that this milestone document is still draft and has not yet gone through Don, but this is the PMRA proposed update to the milestones originally provided by EPA. Please have a look and let us know if you have any questions/comments/etc.

2) Tracking sheet for the studies to be considered (registrant and literature), including primary/secondary review status and status of DER completion. The tracking sheet includes all three actives, and is separated into the following:

## **Ex. 5 - Deliberative Process**

# Ex. 5 - Deliberative Process

Hopefully this will help in planning/understanding where the agencies are at in the evaluations, what the milestones are, and where we may be able to work together.

Let us know if you have any questions, and let us know if EPA has further comments on the milestones-

Thank you

Connie
